Company Overview

AD-PACK Manufacturing at a Glance

AD-PACK®

ADVANCED CONVERTING SOLUTIONS FOR A CLEANER, SAFER TOMORROW

AD-PACK Manufacturing is a converting and manufacturing partner focused on automotive applications, supporting customer requirements from quotation and prototype phases through industrialization and production support.

MOBILITY
PEOPLE
A CLEANER
TOMORROW

Core Capabilities

- Adhesive tape and foam converting
- Laminating and die cutting
- Thermoforming solutions
- Prototype and production support
- Engineering change implementation
- Documentation and validation support

Industries Served

- Automotive
- Industrial applications
- Custom engineered components

TERMOFORMADO by AD-PACK

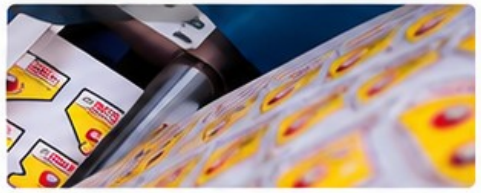

THERMOFORMING

It is the total option to performed your projects and we adapted to the thermoforming needs of a wide variety of industries.

TAILORED SOLUTIONS FOR YOUR APPLICATIONS

CONVERSION by AD-PACK

CONVERSION+

The alternative for your needs in quality converters. Our extensive experience and hundreds of clients support our service.

PRECISION CONVERTING WITH PROVEN EXPERIENCE

Embalaje+ by AD-PACK

PACKAGING+

The most complete solution for your packaging needs with high quality products, whether to sell, store or transport.

COMPLETE PACKAGING FOR A STRONGER TOMORROW

SUPPORTING OUR CUSTOMERS | DRIVING OPERATIONAL EXCELLENCE | DELIVERING QUALITY TOGETHER | A CLEANER, SAFER TOMORROW

PEOPLE | PARTNERSHIP | PROGRESS

AD-PACK®
ENGINEERED SOLUTIONS FOR A SMARTER TOMORROW

TRUSTED TODAY, DRIVING A CLEANER TOMORROW.

Commercialization & Distribution Solutions

Industrial Supply, Authorized Distribution & Packaging Solutions

AD-PACK combines technical advisory, industrial sourcing, and value-added commercialization to support customer operations with reliable products, packaging solutions, and nationwide distribution.

AUTHORIZED BRANDS

3M | Tuk | Milwaukee | Pregis | Rehrig Pacific Company | Shurtape

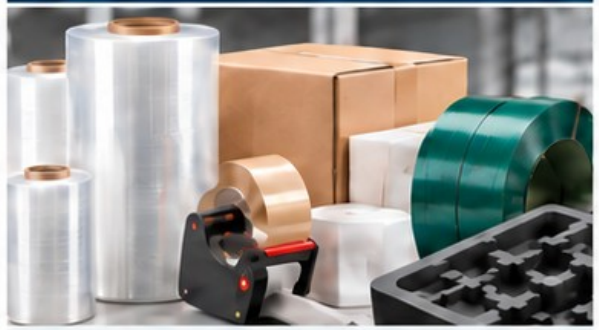

TRUSTED BRANDS. REAL SOLUTIONS.

Industrial Distribution
MATERIALS FOR A STRONGER INDUSTRY

- Adhesive systems
- Abrasives
- Filtration & purification
- Electronics applications
- Industrial tools

Packaging & Embalaje
PROTECTING WHAT MOVES YOUR INDUSTRY

- Stretch film (manual & automatic)
- Case sealing tapes & dispensers
- Printed tapes
- Strapping systems
- Protective packaging

Commercial Value Proposition
YOUR PARTNER THROUGHOUT MEXICO

- Technical advisory
- Broad assortment
- Nationwide coverage
- Reliable logistics
- Fast response

Strategic Location | Aguascalientes, Mexico

Proudly Mexican Company Since 1996

AD-PACK is located in Aguascalientes, Mexico, with a Commercial Distribution Center and Manufacturing Plant.
We support customers from Aguascalientes with commercial distribution, packaging solutions, and manufacturing capabilities.

Logistics Advantages

- Central location in Mexico for nationwide distribution
- Strategic access to key industrial corridors and the Bajio region
- Efficient logistics to automotive and industrial customers
- Fast response and improved delivery lead times
- Strong connectivity for commercial and manufacturing operations

MATERIAL INNOVATION FOR A BRIGHTER JOURNEY

LOCAL EXPERTISE. GLOBAL PARTNERS. A CLEANER TOMORROW.

Automotive Assembly Process Filtration

Cleaner processes. Better coating quality. Less rework.

AD-PACK ENGINEERED SOLUTIONS FOR A SMARTER TOMORROW

ThermoFisher SCIENTIFIC

AUTHORIZED DISTRIBUTOR

THERMO SCIENTIFIC™ | DF SERIES

CLEANER FLUIDS. BETTER FINISHES.

High-performance filtration for wash, rinse and pretreatment circuits. Captures contaminants before they become coating defects.

DF Series • Process Filter Bags

PROVEN VALUE IN AUTOMOTIVE APPLICATIONS

5.3× longer filter life in a rinse-stage study

87% fewer hood dirt defects in the documented study

LESS rework, change-outs and process disruption

Source: Thermo Fisher Scientific DF Series automotive technical brief. Case-study results are application-specific and not guaranteed.

3 **EFFICIENCY** VALUE

4 **TECHNICAL** SUPPORT

GLOBAL TECHNOLOGY LOCAL DISTRIBUTION

Automotive Paint Shop Filtration

Preserve color. Control contamination. Protect the finish.

AD-PACK ENGINEERED SOLUTIONS FOR A SMARTER TOMORROW

ThermoFisher SCIENTIFIC

AUTHORIZED DISTRIBUTOR

THERMO SCIENTIFIC™ | BETAPURE™ AU

KEEP THE COLOR. REMOVE THE DIRT.

Absolute-rated, classifying filtration removes unwanted particles while preserving pigments, mica and metallic effects in base coat.

Betapure™ AU • Filter Cartridges

01 / STAGE
PAINT RECEIVING

02 / STAGE
PAINT KITCHEN

03 / STAGE
PAINT BOOTH

PROVEN VALUE IN AUTOMOTIVE APPLICATIONS

50% less solid-color rework in the case study

$1.65M annual repaint-rework savings in the documented plant

LESS defects, paint waste and rework

Source: Thermo Fisher Scientific automotive base-coat application brief. Results depend on operating conditions; plant validation required.

PHARMACEUTICAL

Authorized 3M Associate Converter

3M
Associate Converter

AD-PACK is an authorized 3M Associate Converter, providing access to high-performance 3M materials and converting them into application-specific formats, shapes, and quantities.

Trusted material sourcing
Direct access to 3M technologies

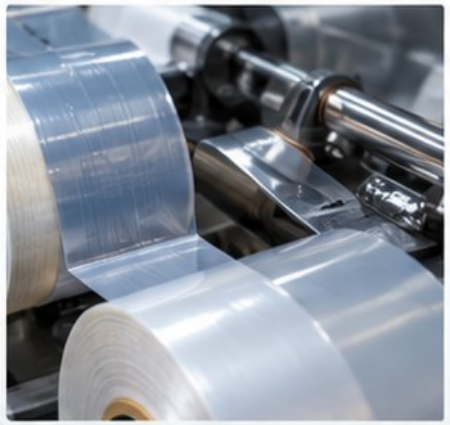

Application-specific converting
Shapes, sizes and quantities for your needs

Quality & safety confidence
A recognized indication of performance and reliability

3M INNOVATION MATERIALS A STRONGER TOMORROW

Converting Capabilities

FROM MATERIAL TO YOUR SOLUTION

Technologies

- Slitting & Rewinding
- Laminating
- Log Slitting
- Die Cutting
- Kiss Cutting

Applications

- Sound absorption
- Thermal insulation
- Water / air / dust sealing
- Anti-vibration
- Gap filling
- High-performance labels

Materials

- Acrylic adhesive
- Damping foil
- Cellular rubber foam
- Polyester tape
- Polyethylene film & tape
- Polyethylene foam
- Polyurethane foam
- Bi-adhesive
- Thermal polyester

Thermoforming & Engineered Packaging

PROTECTING WHAT MOVES YOUR INDUSTRY

Custom trays and protective packaging
From simple to complex designs

Specialized prototypes and tooling support
From concept to production

Design & engineering assistance
Material selection and application expertise

Parts handling and material protection
For delicate and high-value components

High-volume and low-cost thermoformed solutions
Efficient and scalable manufacturing

Support for multiple industries
Automotive, industrial, electronics, food, pharmaceutical and commercial sectors

Thermoforming Materials

HIPS	HIPS ESD
HDPE	ABS
PP	PET
PET ANTIESTÁTICO

WORLD-CLASS MATERIALS

Precision Converting
FROM ROLL TO SOLUTION

Thermoforming Expertise
PROTECT • PACKAGE • PERFORM

Engineering Support
FROM CONCEPT TO PRODUCTION

Integrated converting and thermoforming capabilities supporting OEM, Tier and industrial applications.

Die Cutting & Kiss Cutting Solutions

Regular Shape vs Figured Shape Applications

AD-PACK®
ENGINEERED SOLUTIONS FOR A SMARTER TOMORROW

TRUSTED TODAY. DRIVING A CLEANER TOMORROW.

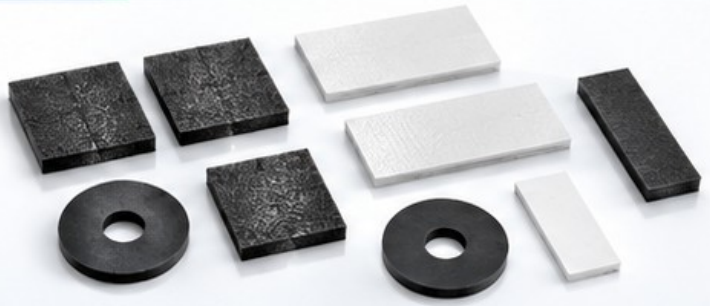

CONVERT | PROTECT | ENABLE | SUSTAIN

Die Cut – Regular Shape

Squares, rectangles, strips, washers

Cuts through the full material thickness.

- Individual loose parts
- Clean, precise edges
- Ideal for finished components

Kiss Cut – Regular Shape

Squares, rectangles, strips, washers

Cuts the top material only (liner remains intact).

- Parts stay on release liner
- Easy peel-and-place
- Efficient for assembly applications

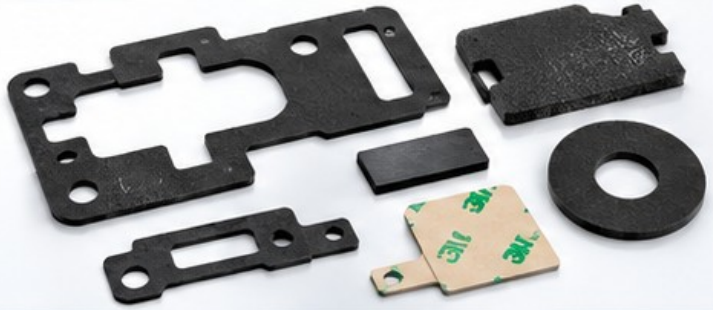

Die Cut – Figured Shape

Custom contours for OEM applications

Cuts through the full material thickness.

- Individual loose parts
- Complex custom contours
- Ideal for automotive & industrial applications

Kiss Cut – Figured Shape

Custom contours for OEM applications

Cuts the top material only (liner remains intact).

- Parts stay on release liner
- Complex shapes with easy release
- Optimized for high-volume assembly

UNDERSTANDING THE CUT PROFILE

Two converting methods.
Different end results.
Built for your application.

Through Cut

Cut through the full material thickness
(Individual parts)

Kiss Cut

Cuts the top material only
(Parts remain on liner)

ADVANCED CONVERTING SOLUTIONS FOR A CLEANER, SAFER TOMORROW

MOBILITY PEOPLE A CLEANER TOMORROW

Warehouse

- Raw material storage
- Finished goods storage
- FIFO inventory management

Key Highlights

- Two dedicated manufacturing areas: Converting & Thermoforming
- Centralized warehouse and shipping operations
- In-house quality laboratory
- ISO 9001 certified quality management system
- Integrated support functions for production and customer service

Integrated manufacturing infrastructure supporting production, quality assurance, and customer delivery requirements.

Shipping Area

- Finished goods staging
- Packing and labeling verification
- Customer shipment preparation

Support Areas

- Engineering
- Quality
- Production Planning
- Administration

Quality Laboratory

- Incoming material verification
- Dimensional inspection
- Product validation and testing

Thermoforming Area

- Thermoformed packaging and tray production
- Forming and finishing operations
- Visual and dimensional inspections

Conversion Area

- Adhesive tape converting operations
- Slitting, die-cutting and laminating processes
- Customer-specific product manufacturing

Quality Management System

Certified Processes. Consistent Quality. Customer Confidence.

AD-PACK

CONVERTING SOLUTIONS FOR A CLEANER, SAFER TOMORROW

ISO 9001:2015 Certified

Our Quality Management System is certified by an IAF-accredited certification body, ensuring compliance with international standards.

CERTIFICADO DE REGISTRO

Management & International Register

CERTIFICADO DE REGISTRO
Código de identificación 90-446-2024-MX
MANAGEMENT AND INTERNATIONAL REGISTER S.C.

Fecha de Otorgamiento Inicial: 20 Junio 2025 — Fecha de Caducidad: 20 Junio 2028

El presente documento certifica el Sistema de Gestión de Calidad de:

AD-PACK (Rosa María Herrera Soltero)
Prolongación Tepezalá # 313, Fracc. El plateado, C.P. 20137, Aguascalientes, Aguascalientes México.

El cual ha sido auditado y aprobado bajo el criterio dicance:

a) Comercialización de productos de empaque.
b) Distribución autorizada de productos 3M.
c) Distribución autorizado de productos TUK.
d) Logistica y almacén para sitio 1, 2, 3.

De acuerdo a la norma:

Quality Across the Entire Process

Integrated quality controls from incoming material to customer delivery.

Incoming Material Control	In-Process Quality	Final Inspection & Release	Customer Quality Support	Continuous Improvement
• Supplier quality • Incoming inspection • Dimensional and visual inspection • Material traceability	• Process control • In-process inspection • Dimensional verification • Documented checks	• Product verification • Compliance to specifications • Lot traceability • Release authorization	• Customer complaints management • 8D / Root Cause Analysis • Engineering changes (4M) • APQP / PPAP support	• Corrective actions • Internal audits • Performance monitoring • Lessons learned • Stronger customer satisfaction

Our Commitment

Delivering consistent quality through disciplined processes, qualified people and a culture of continuous improvement.

QUALITY TODAY.
STRONGER TOMORROW.
